Job Title	Medical Scribe
Job Description	<p>Medical Scribe - a new medical industry emerging in India</p> <p>A Medical Scribe is a revolutionary concept in modern medicine. Traditionally, a physician's job has been focusing solely on direct patient contact and care; however, the advent of the Electronic Health Record (EHR) created an overload of documentation and clerical responsibilities that slows down the physicians down and pulls them away from actual patient care. To relieve this documentation overload, physicians are looking up to Medical Scribe services. With advances in practice management systems, technology now enables a Remote Documentation Specialist to see and hear a patient's visit live gathering information from the visit and create accurate Electronic Health Record in real-time and assist in effective patient care and prevent physician burn-out.</p> <p>Why Medical Scribing is essential</p> <p>Doctors save lives. Scribes save doctors!!</p> <p>To achieve this mantra, scribes undergo extensive training which includes English language, computer and typing skills, professional communication, medical knowledge, and much</p>

	<p>more. With these skills, you will be able to work remotely with physicians every day and enable them to practice what they are trained for – Effective Patient Care.</p> <p>Life as a scribe:</p> <ul style="list-style-type: none"> • Scribes are part of the medical care team. You work directly with the doctor on his/her fixed schedule. • Become medical language specialist, every day get a first-hand understanding of the process of medical decision making, and how medical decisions/differential diagnosis/and patient disposition is made. • Fixed salary based on your experience levels, no stress of meeting targets or deadlines!! • 5 day work week (NIGHT SHIFTS) – enjoy weekends!! • Freedom in work and better work environments – no set rules, enjoy creativity with language every day.
