<b>Job Title</b>	Management Trainee
<b>Job Description</b>	<p>Being in IT services space it is very important for us to be aware of the latest trends in the market so that we can advise our clients with the right strategy and preparedness needed to stay ahead of the curve. In this effort, we typically look at trends in consumer behaviour, changing technology landscape and regulatory landscape affecting the BFSI space.</p> <p>As it might already appear evident, the main responsibility for this internship is market research involving both primary and secondary channels. This research would demand the individual to:</p> <ul style="list-style-type: none"> <li>• Design a research methodology for arriving at a conclusion.</li> <li>• Conduct the research in a conclusive manner.</li> <li>• Collect data from both primary and secondary resources.</li> <li>• Publish research findings in PowerPoint or word format.</li> </ul> <p>We @ Nagarro are proud of our product engineering mindset. And the development of a good product starts with research. We call this "product research" which is used to create a product brief. The activities to be carried out here are:</p> <ul style="list-style-type: none"> <li>• Ability to understand the basics of user research.</li> <li>• Ability to frame user stories along with acceptance criterions.</li> <li>• Ability to understand the basics of product management.</li> </ul> <p>The candidate is expected to be involved in either market or product research based on the requirement."</p>
